Quiz Instructions

Question 1

9 pts

Place the following sentential forms in the correct order for a leftmost derivation of $b*c+a$ using the modified grammar from Example 6–12:

$$E \rightarrow E+M \mid M$$

$$M \rightarrow M*R \mid R$$

$$R \rightarrow (E) \mid a \mid b \mid c$$

(Use no spaces in your answers)

A

[Choose]

B

[Choose]

C

[Choose]

D

[Choose]

E

[Choose]

F

[Choose]

G

[Choose]

H

[Choose]

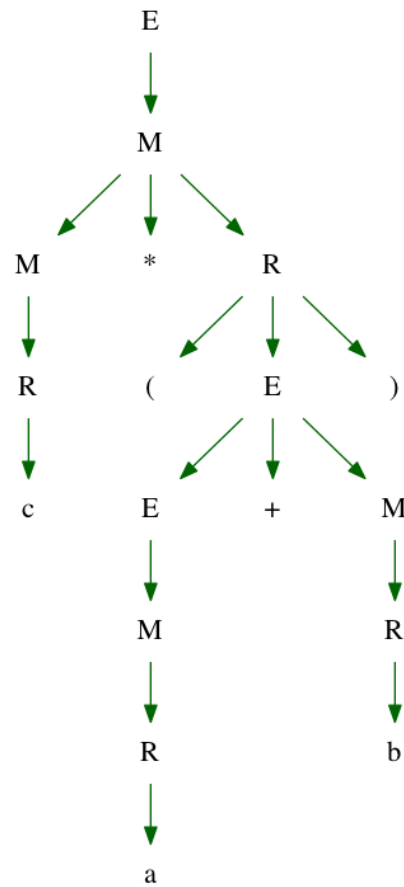

I

[Choose]

**Question 2****11 pts**

Enter the sentential forms for a leftmost derivation using the same grammar as in #1 above that corresponds to the derivation tree below.

$E \Rightarrow$ $\Rightarrow$ $\Rightarrow$ $\Rightarrow$

$\Rightarrow$ $\Rightarrow$ $\Rightarrow$ $\Rightarrow$

$\Rightarrow$ $\Rightarrow$ $\Rightarrow$

Question 3**2 pts**

Enter the prefix notation equivalent for $a+b*c$. (Use *exactly one space* between symbols or *zero spaces* between symbols in your answer--don't mix the number of spaces.)

Question 4**2 pts**

Enter the postfix equivalent of $a+b*c$.

Question 5**2 pts**

Enter the postfix equivalent of $a+b+c$.

Question 6**2 pts**

Enter the postfix equivalent of $a*(b + c)+d*e$.
