Quiz Instructions

Question 1

3 pts

Match the transitions on the right with grammar rules on the left.

$X \rightarrow aYb$

[Choose]

$X \rightarrow aX$

[Choose]

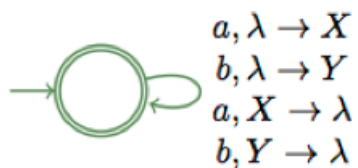

$X \rightarrow \lambda$

[Choose]

The 2 questions below pertain to converting the following PDA to a CFG.

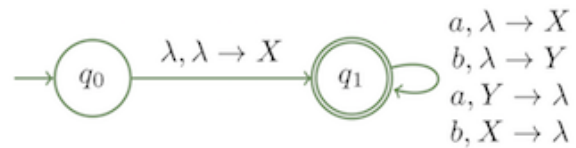

Question 2**3 pts**

Enter (in *alphabetical order*--ignoring the arrow) the transitions that replace the transition $a, \lambda \rightarrow X$ when converting the PDA above to a CFG. (Use the 2 characters $\rightarrow$ or a slash (/) for a right arrow. Enter no spaces.)

Question 3**3 pts**

Enter (in alphabetical order) the transitions that replace the transition b, λ, Y when converting the PDA above to a CFG.

The 2 questions below pertain to converting the following PDA to a CFG.

Question 4

6 pts

Fill in the blanks in the grammar rule below corresponding to the transition $a, Y \rightarrow \lambda$ on state q_1 .

$\langle$ $\rangle \rightarrow a \langle$
 $\rangle$

You may type "lambda" (without the quotes) for λ .

Question 5**9 pts**

In the process of converting the PDA above to a CFG, you will need to introduce the transition $a, Y \rightarrow XY$ on q_1 . Fill in the blanks below for the grammar rule corresponding to this transition.

< > $\rightarrow$

a < >

< >
